

## CODE ASME BPVC 2021 ONLINE

The ASME Boiler and Pressure Vessel Code (BPVC) is the international benchmark for knowledge on the latest safety regulations for the design, production, maintenance and inspection of boilers and pressure vessels.

This Code is available in digital version in the form of subscriptions specifying the number of users and simultaneous connections. This electronic version (online subscription) has been possible since the 2017 edition. Indeed, since then, certificate holders are no longer required to purchase a paper version for their certification.
